In most parts of Washington, the number of child care providers declined from 2008-2013, becoming more stable from 2014-2020 although still in decline at a lesser rate. Capacity for children declined from 2008-2013, however due to more family child care closures than center-based care, capacity has risen from 2014-2019. There is a dip in number of providers and capacity in 2020. This may be understated because as of June 2020, 27% of child care capacity was temporarily closed due to COVID and based on our surveys of child care providers, some of these sites will not re-open.

In Benton County, the number of child care providers has dropped from 156 with capacity for 3892 children in 2015, to 131 providers with capacity for 4480 children in June of 2020.*
