

Child Care in Clallam County

July 2023

Statewide during the past 12 years, Washington has gained over 15,000 slots and decreased by 2,300 providers. The increases in capacity are a result of more family child care closures and larger centers opening. Since 2022, Washington has seen an increase of 400 family child care programs and 70 centers. Current gains in providers are encouraging, however we have significantly less providers than 12 years ago. The trend of less providers and more capacity being available at large centers has contributed to child care deserts, as the number of child care locations has decreased. Moreover, communities across the state have experienced differential outcomes in child care availability as some areas experienced greater child care decreases and in some cases lowered capacity.
