

Publish Your Profile in Child Care Finder

Market your program and
help families find care!

- Update openings in under 5 minutes
- Show what makes your program special and unique
- Stay in control of your listing

Child Care Finder is the only free statewide child care and early learning search platform in Washington. Child Care Finder features more than 6,500 early care and education sites across the state, serving more than 15,000 families each year.

Child Care Finder puts the power in providers' hands.

Market your program for free.

Child Care Finder is a free marketing platform that helps families discover your program and learn more about the care you offer.

Help families find care faster.

Child Care Finder gives you ownership of your listing, making it easier for families to find you when you have openings. Parents actively looking for care can message providers directly to ask questions, get on a wait list, and request a tour.

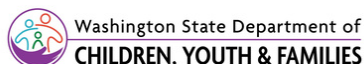

Show what makes your program special.

This is your chance to go beyond a basic listing. You can personalize your profile and help families see what makes your program unique, welcoming, and right for their child. Add photos, staff bios, or a video tour for families to see!

Make quick and easy updates.

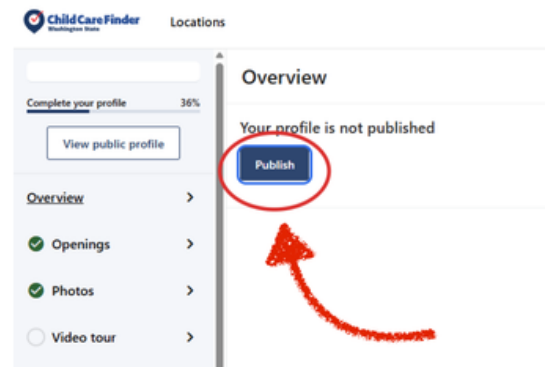

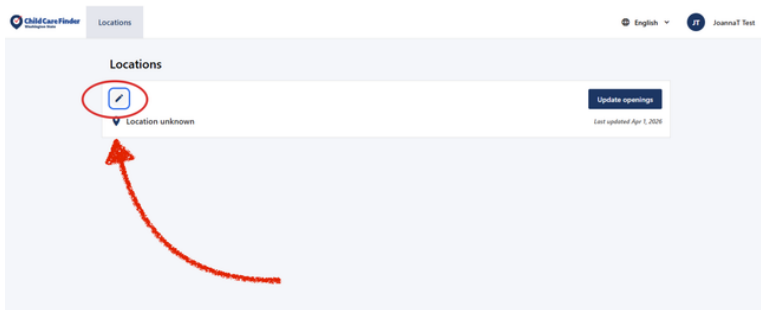

You can review your profile, update your openings, and make changes in under 5 minutes.

Proudly Funded By:

How to Publish Your Profile:

1. Go to providers.childcareawarewa.org and enter your email address.
2. A code will be sent to your email address. Enter that code to access the Provider Portal landing page.
3. From the landing page, click the pencil icon to view and edit the profile.
4. Make sure to click Publish. You can return any time to keep working on your profile and adding information before it's launched to families this summer!

Need help getting started?
